REMARKS

The figures of births and deaths for the week ending 8th December, 1962 shown in this statement relate to 305 towns in the States of Andhra Pradesh, Assam, Bihar, Delhi, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan & West Bengal. These towns account for a population of 40145 thousand out of a total population of 53345 thousand in the country in 435 towns, each having a

population of 30,000 and over.

In 240 towns having a population of 31453 thousand in Group I, where registration is comparatively more complete; 21596 births and 6614 deaths were recorded giving a birth rate of 35.7 and a death rate of 10.9 per thousand of population. The rates registered in the various States are as follows :

State	Current w/c 8-12-1962		Corresponding w/c last year	
	B. R.	D. R.	B. R.	D. R.
Group I :				
Andhra Pradesh	31.1	10.8	49.9	10.9
Delhi	37.6	8.5	31.6	7.1

West Bengal	18.8	10.5	23.2	10.8

The table given below shows the annual vital rates for the period subsequent to the year 1959, for which 'Vital Statistics of India' has been published. The data in this Table relate to Municipal towns, with population 30,000 and over, and are based either on final annual figures or provisional weekly figures converted into annual rates. Appropriate adjustments in population are made, if the data for any town could not be included. The data for States not shown are much too deficient for being presented. Even the data for States which are shown are deficient to a varying degree. All the same they are being presented to draw attention to their possible use in tracing current trends. Effort has to be made to improve their completeness. The following limitations may be particularly noted:

1. The rates for 1960 show that the figures based on the annual and weekly returns agree fairly closely in the cases of Gujarat, Kerala and Punjab only. The difference between the two sets of rates is quite appreciable in other States.

2. The quarterly and monthly figures seem to have a considerable seasonal variation.
